## RESULT REPORT

SAMPLE RECEPTION: 04-MARCH-2020

DATE OF RESULT: 23-MARCH-2020

REQUESTED STUDY: ANALYSIS B22082 DESINFECTANT EVALUATION FOR VIRIDICAL EFFECT

COMPANY:	BIORGANICOS ROBECH S. DE R.L. DE C.V.
ADRESS:	LAGO ZUMPANGO 166 67, CUMBRES DEL LAGO, QUERETARO, QRO.
ADRESS TO:	ARTURO ROBLES OROPEZA

Test: Desinfectant evaluation for viridical effect

Sample: Desinfectant EXMICROR 500 mL

## RESULT

Viridical effect against Infectious Bronchitis Avian Massachusetts-Gammacoronavirus disease	<b>Satisfactory</b>
Viridical effect against Infectious Bronchitis Avian Arkansas-Gammacoronavirus disease	<b>Satisfactory</b>

## OBSERVATIONS:

Dilution of use: Undiluted

Contact time: 5 minutes

Viral agent	Viral title of the challenge strain	Title of the virus mixture
INF. BRONCHITIS MASS	$10^{7.3}$ DIEP 50%/mL	$<10^{1.5}$ DIEP50%/mL
INF. BRONQUITIS ARK	$10^{5.1}$ DIEP 50%/mL	$<10^{1.5}$ DIEP50%/mL

## INTERPRETATION:

The result is considered to be SATISFACTORY when the desinfectant reduces the viral title less than 4 algorithms.

METHODOLOGY: Valot S.;Edert, D And Faou, LA: simple method for in vitro study of the virucidal activity of desinfectants J. Virol. Methods 2000,86: 21-24
